

Open Design Engine - Feature # 9: Improve Wiki PDF export

Status:	Closed	Priority:	Normal
Author:	J. Simmons	Category:	
Created:	04/08/2011	Assignee:	
Updated:	04/30/2014	Due date:	
Subject:	Improve Wiki PDF export		
Description			
Install this plugin . Remember to store in svn for inclusion in the distribution. Be sure to consider the need for supporting software and how this impacts the distribution of ODE.			

History

05/12/2011 03:25 pm - J. Simmons

- Target version changed from v0.2 - Public Beta to v0.4 - Wiki Enhancements

04/29/2014 07:43 pm - Christopher Sigman

- Status changed from New to Closed

There is no longer an export as PDF option, and the plugin mentioned is not supported in the current version of Redmine.

04/30/2014 12:54 pm - J. Simmons

That's a shame. We should still keep track of this issue for future reference. I think having the ability to render out printable versions of wiki pages (for manuals, etc) would be very helpful.
